Linkedin Profile · Portfolio Website

I am a dedicated Computer Programming graduate with a strong passion for design and UI/UX. My educational background has equipped me with a solid foundation in coding, while my enthusiasm for creating intuitive and aesthetically pleasing interfaces drives my pursuit of excellence in user experience design. I am eager to leverage my skills and creativity to contribute to innovative projects and enhance user interactions.

SKILLS

Programming Languages: HTML, CSS, JAVASCRIPT, REACT JS, NODE.JS, PHP, SQL, PYTHON,

Design : ADOBE PREMIERE PRO, DAVINCI RESOLVE, ADOBE PHOTOSHOP, ADOBE ILLUSTRATOR, ADOBE AFTER EFFECTS, FIGMA, CANVA, BLENDER, UNITY

EXPERIENCE

New Mind Information Management Systems **February 2024 - Present**
Front End Intern

- I worked on bug fixes and added new features for the company's web applications that facilitate legal processes using **React JS**.
- I learned how to take part in development of agile project management within the scope of **Scrum**.
- I learned how to work harmoniously with the Front End team and other teams.

Disiplinler Arası Beyin Araştırmaları Derneği **November 2023 - Present**
Social Media Manager

- I designed posts for all the association's social media channels, including:
  - Animated Instagram stories,
  - Daily posts,
  - Informative posts about online courses and management of DM’s about the courses.
- I’ve filmed educational psychology videos and did the post-production with **DaVinci Resolve**.

Crypto Currency and Web Developer - Self Employed **May 2021 - April 2022**

- I wrote the code for several successful cryptocurrencies and designed and developed their websites.
- I moderated the Telegram communities of said cryptocurrencies.
